PATIENT FILE

My PCOD Xpert
Patient File

PCOD | PCOS | PMOS · Care from a multidisciplinary team under one roof

THIS FILE BELONGS TO

PATIENT NAME	PATIENT ID
DATE OF BIRTH / AGE	MOBILE / WHATSAPP
PRIMARY DOCTOR	PROGRAMME (3-month / 6-month) AND START DATE
EMERGENCY CONTACT (NAME AND PHONE)	KNOWN ALLERGIES / CONDITIONS

01 Welcome to your file

One place for your history, tests, plan and progress

BOTH

This file is **yours**. It travels with you to every visit, so every doctor on your team sees the same full picture. The more completely it is filled in, the better your plan can be.

How to use this file

1

Fill in the pink-tagged pages at home before your first visit.

2

Your doctors complete the purple-tagged pages during visits.

3

Bring it back to every visit and update the logs and diary.

What is inside

3	Patient details	4	Health history

PATIENT FILLS

About me

FULL NAME | PATIENT ID | DATE

DATE OF BIRTH | AGE | HEIGHT (cm) | WEIGHT (kg) | BLOOD GROUP

OCCUPATION | MARITAL STATUS | LANGUAGE I PREFER

How to reach me

MOBILE / WHATSAPP | ALTERNATE NUMBER | EMAIL

ADDRESS

CITY / PIN CODE | BEST TIME TO CALL | ID PROOF TYPE / NUMBER

Emergency contact

NAME | RELATIONSHIP | PHONE

Referral

- ☐ Self / walk-in
- ☐ Doctor referral
- ☐ Family or friend
- ☐ Social media
- ☐ Online search
- ☐ Other hospital

REFERRED BY / NOTES

How we may contact me

- ☐ Phone call
- ☐ WhatsApp message
- ☐ SMS
- ☐ Email
- ☐ Reports may be sent on WhatsApp
- ☐ Reminders for appointments

For teens (under 18)

A parent or guardian fills in and signs the consent page. Add their name and phone number above as emergency contact.

03 Health history

Your story, in your own words. Tick what applies

PATIENT FILLS

Periods

AGE AT FIRST PERIOD | USUAL CYCLE LENGTH (days) | BLEEDING DAYS | LAST PERIOD (LMP)

- ☐ Regular
- ☐ Irregular
- ☐ Missed for 3 months or more
- ☐ Heavy bleeding
- ☐ Painful periods
- ☐ Spotting between periods

Pregnancy and fertility

PREGNANCIES | LIVE BIRTHS | MISCARRIAGES | TRYING TO CONCEIVE SINCE | CONTRACEPTION USED

- ☐ I want to get pregnant now
- ☐ Pregnancy later
- ☐ Not planning pregnancy
- ☐ Earlier fertility treatment taken

Medical conditions (me)

- ☐ Thyroid problem
- ☐ Diabetes / high sugar
- ☐ High blood pressure
- ☐ High cholesterol
- ☐ Fatty liver
- ☐ Sleep apnoea / snoring
- ☐ Depression / anxiety
- ☐ Anaemia
- ☐ Asthma / allergies

OTHER CONDITIONS, SURGERIES, HOSPITAL STAYS

Family history

- ☐ PCOD / PCOS
- ☐ Diabetes
- ☐ Thyroid problem
- ☐ High blood pressure
- ☐ Heart disease
- ☐ Cancer (type: _____)

Allergies and current medicines

ALLERGIES (medicines, food, other)

MEDICINES AND SUPPLEMENTS I TAKE NOW

Daily life

DIET (veg / non-veg / egg / other) | MEALS PER DAY | EXERCISE (type, minutes per week)

SLEEP (hours per night) | WATER (glasses per day) | STRESS LEVEL (0-10) | SMOKING / ALCOHOL / TOBACCO

04 My symptoms and goals

Tick one circle for each line. Be honest, there are no wrong answers

PATIENT FILLS

How much does it bother me?

Symptom	None	Mild	Moderate	Severe
Irregular or missed periods	○	○	○	○
Painful or heavy periods	○	○	○	○
Acne or oily skin	○	○	○	○
Extra hair on face or body	○	○	○	○
Hair thinning or hair fall	○	○	○	○
Dark velvety skin patches (neck, underarms)	○	○	○	○
Weight gain, hard to lose weight	○	○	○	○
Sugar cravings, tired after meals	○	○	○	○
Tiredness, poor sleep, snoring	○	○	○	○
Low mood, anxiety, mood swings	○	○	○	○
Trouble getting pregnant	○	○	○	○

SINCE WHEN HAVE I HAD THESE SYMPTOMS?

WHAT MAKES IT BETTER / WORSE?

What I want from treatment

☐ Regular periods	☐ Clearer skin	☐ Less unwanted hair
☐ Stop hair fall	☐ Lose weight	☐ Steady energy and mood
☐ Better sleep	☐ Plan a pregnancy	☐ Protect my long-term health

What matters most to me

MY TOP 3 GOALS (in my own words)

1.

2.

3.

My worries and questions for the doctor

05 Doctor's assessment

Measurements, diagnosis and classification

DOCTOR FILLS

Measurements

Measure	Baseline	Month 1	Month 3	Month 6	Target
Weight (kg)					
BMI					
Waist (cm)					
Hip (cm)					
Blood pressure					
Pulse					
Hirsutism score (mFG)					
Acne grade					
Skin and hair analysis					
Body composition (fat %, muscle)					

Rotterdam criteria: any 2 of 3

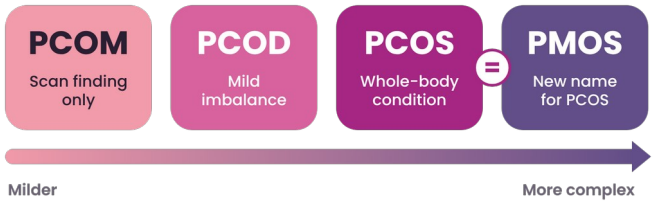

☐ Irregular or no ovulation ☐ High androgens (signs or blood tests) ☐ Polycystic ovaries on ultrasound

Other causes ruled out

☐ Thyroid disorder ☐ High prolactin ☐ Non-classic CAH (17-OHP)

☐ Cushing's / adrenal cause ☐ Other: _____

Classification

☐ PCOM (scan finding only) ☐ PCOD (mild imbalance) ☐ PCOS / PMOS (whole-body condition)

Doctor's notes

DIAGNOSIS AND KEY FINDINGS

DOCTOR NAME AND SIGNATURE

DATE

06 Investigations tracker

Write the date and the result. Compare at each review

DOCTOR FILLS

Test	Date	Result	Date (review)	Result (review)	Remarks
HORMONES					
LH and FSH (LH-FSH ratio)					
AMH					
TSH					
Prolactin					
Free / total testosterone					
SHBG and FAI					
DHEA-S					
17-OH progesterone / androstenedione					
Cortisol (if advised)					
SUGAR, FATS AND INFLAMMATION					
Fasting glucose and insulin					
HbA1c					
OGTT (2-hour) / HOMA-IR					
Cholesterol: total, LDL, HDL					
Triglycerides					
hs-CRP					
VITAMINS, IRON AND ORGANS					
Vitamin D3					
Vitamin B12 and folate					
Ferritin / iron panel					
Liver tests (SGOT, SGPT)					
SCANS AND OTHER TESTS					
Pelvic ultrasound (ovaries, lining)					
ECG / ECHO (if needed)					
Sleep apnoea screening					

Lab reference ranges differ between labs. Your doctor will explain each result and mark it against the range printed on your report.

07 My treatment plan

Chosen together by you and your doctors

DOCTOR FILLS

Programme

☐ 3-month programme ☐ 6-month programme ☐ Consultation only ☐ Fertility plan

START DATE REVIEW DATES PROGRAMME COORDINATOR

My care team

Specialty	Focus	Doctor / start date
Gynecology	Periods, fertility, womb	
Endocrinology	Hormones, insulin, thyroid	
Dermatology	Skin, hair, acne

☐ Microneedling / PRP ☐ Body contouring ☐ Pelvic chair ☐ Ayurveda therapies

Fertility

☐ Cycle and ovulation tracking ☐ IUI ☐ IVF / ICSI ☐ LOD

Plan notes and special instructions

08 Medicines and supplements

Doctor writes the dose. I tick when I take it as advised

BOTH

Medicine / supplement	Dose and timing	Why	Start	Stop	Prescribed by

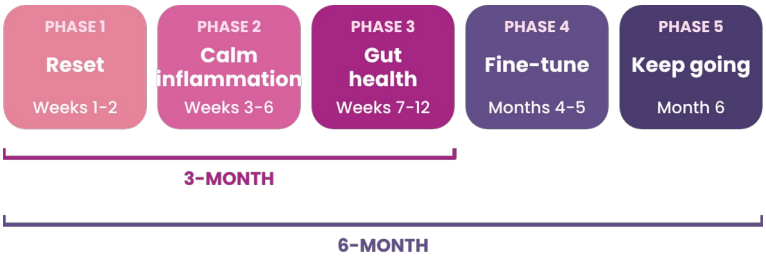

Remember

Take medicines and supplements only as your doctor advises. Do not start, stop or change anything without asking. Tell your doctor about any other medicine you take, including Ayurvedic and over-the-counter ones.

09 Eating roadmap

Track your 5 phases. Your dietitian guides each step

BOTH

Phase	Focus	What I do	Planned dates	Done
Phase 1	Reset	Cut refined sugar, sweeteners, packaged food, extra seed oils. Add cruciferous vegetables. Fibre 30 g/day. Night gap 9-10 h.		☐
Phase 2	Calm inflammation	Mediterranean style: olive oil, fatty fish or flaxseed, berries, turmeric, cinnamon. Night gap 11-12 h.		☐
Phase 3	Gut health	Fibre 35 g or more: dals, chana, seeds. Gut-healing drinks. Review at end of month 3.		☐
Phase 4	Fine-tune	Vegetables first, then protein, carbs last. No late-night eating. Ancient grains. Night gap 12-14 h.		☐
Phase 5	Keep going	80/20 rule. Re-introduce foods one at a time. 25-30 g protein per meal.		☐

A day on my plate

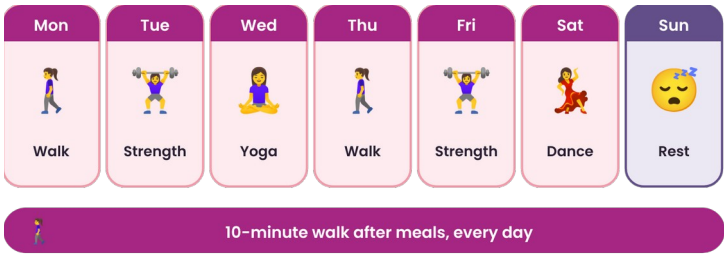

Meal	Time	What I plan to eat	Notes
Early morning			
Breakfast			
Mid-morning			
Lunch			
Evening snack			
Dinner			
Water (glasses)			

Plate reminder: half vegetables and salad, a quarter protein, a quarter whole grains, plus a spoon of healthy fat.

10 Move, sleep, calm log

Small steps, written down. Aim: 150 minutes a week plus 2 strength days

PATIENT FILLS

Week 1

Day	Activity and minutes	Steps	Strength (Y/N)	Sleep (hours)	Stress (0-10)	Mood / notes
Mon						
Tue						
Wed						
Thu						
Fri						
Sat						
Sun						

Week 2

Day	Activity and minutes	Steps	Strength (Y/N)	Sleep (hours)	Stress (0-10)	Mood / notes
Mon						
Tue						
Wed						
Thu						
Fri						
Sat						
Sun						

Week 3

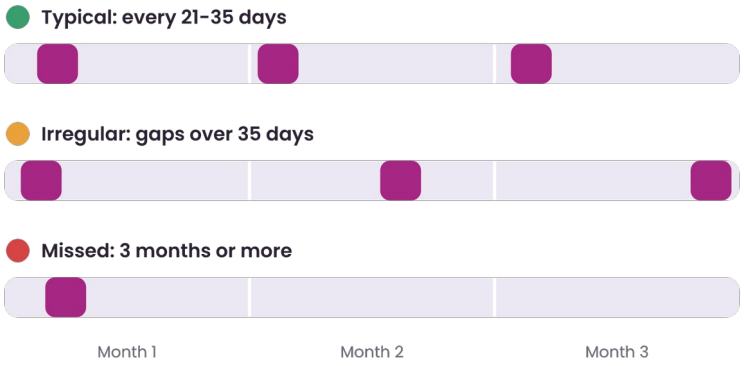

Day	Activity and minutes	Steps	Strength (Y/N)	Sleep (hours)	Stress (0-10)	Mood / notes
Mon						
Tue						
Wed						
Thu						
Fri						
Sat						
Sun						

Tip: a 10-minute walk after meals helps sugar levels. Sleep 7 to 9 hours at the same time each night.

11 Cycle and symptom diary

Write the first day of every period. Rate symptoms 0 (none) to 3 (severe)

PATIENT FILLS

#	Start date	End date	Cycle days	Flow L / M / H	Pain 0–10	Clots Y/N	Acne	Hair	Mood	Weight / notes

Typical: a period every 21 to 35 days, lasting 2 to 7 days. See a doctor if there is no period for 3 months, or bleeding soaks a pad every hour for 2 hours.

12 Visit and follow-up log

One line for every visit, call or message

DOCTOR FILLS

Date	With (doctor / team)	What we discussed	Changes to my plan	Next visit

13 Progress review

Compare yourself with where you started

BOTH

Measure	Baseline	Month 1	Month 3	Month 6

Between visits

Questions about your plan? Message the programme coordinator on WhatsApp. Include your name and patient ID.

Before every visit: update your diary, log and medicine list, and bring this file with all your reports.

Running low on medicines? Call before they finish, not after. Never stop a medicine suddenly on your own.
